Fort Detrick Engineering Directorate

USAISEC

Support to

BRAC 05

Agenda Item 19
Army Standing Committee for Information Systems
22-24 Jun 04

USAISEC - Making Information Technology Work

Agenda

- Background
- BRAC 2005
- IT Planning and Execution
- ISEC Services
- Points of Contact

Background

- BRAC 1, 91, 93, 95
  - Feb 89 thru Jun 01
- Engineering Services
- BRAC Project Management
  - Signal Organizational Management Alignment (SOMA) effective Oct 96

BRAC 2005

- BRAC 2005 authorized by BRAC Act of 1990, as amended through FY 03 Authorization Act

  - Criteria
  - Modeling
  - Assessment
  - Army BRAC Recommendations
- HQDA ACSIM - BRAC Office
  - Developing draft BRAC 05 implementation planning guidance
  - Plan to staff consolidated draft plan in Jun-Aug 04 timeframe
  - Final plan would not be released to installations until the official BRAC list was released.
- ISEC-FDED
  - Update the IT action plan (ITAP) format/questionnaire
  - Provide IT project management
  - Provide IT engineering/technical support

IT Planning and Execution

2004 Jan-Dec Jul | 2005 Apr-May | 2005 May-Aug | 2011

TABS Support
High level, IT assessment
- ✓ Cost model
- ✓ Tech assist
- ✓ Evaluations

HQDA Support
Implementation planning guidance
IT action plan format
IT management budget

Army BRAC List to DOD

Evaluate list for magnitude of IT effort

IT Planning Meeting

Implementation Planning

IT action plans
TA/CE's
ISCE's
On-board reviews

Execution

Construction design & IT engineering design
Partnership agreements
IT execution plans
IT budget management
Detailed engineering
IT acquisitions

One-Stop-Shop Value-Added IT Services

- Program management
- Engineering services
- BRAC expertise remains within USAISEC
- Knowledge of BRAC & MCA processes
- Knowledge of existing and future infrastructure architectures
- Established relationships ACSIM, COE, MACOM’s, RCIO’s and DOIM’s
- Synchronization of BRAC and non-BRAC infrastructure solutions

ISEC-FDED
